Foster Epstein Moreno O'Hare Global Terminal – inspired by Chicago

Foster Epstein Moreno, has created a dynamic and iconic design for O'Hare's new Global Terminal, aiming to recapture the romance associated with air travel while reflecting the city's cultural diversity. The team has partnered with local design and engineering talent such as the **Rebuild Foundation**, a Chicago-based organization that directly engages in the production of innovative arts, crafts and trades programs, founded and led by artist **Theaster Gates**, to work on this incredible project. With a team that is grounded in the city and backed by global expertise, we understand that Chicago is a world player, but one that doesn't forget about its backyard.
